Patentee: Shmuel Shaffer
U.S. Patent No.: 6,839,416 B1
Issue Date: January 4, 2005
Serial No.: 09/643,315
Filing Date: August 21, 2000
Title: *Apparatus and Method for Controlling an Audio Conference*

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

REQUEST FOR CERTIFICATE OF CORRECTION
UNDER 37 CFR § 1.322

It is respectfully requested that a Certificate of Correction be issued in accordance with the enclosed Form PTO-1050. CERTIFICATE OF CORRECTION**

Patent No.: 6,839,416 B1
Dated: January 4, 2005
Inventor(s): Shmuel Shaffer

It is certified that errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Cover Page, Right Column, Primary Examiner, delete "S. Foster" and insert -- Roland G. Foster --.

Cover Page, Right Column, References Cited (56), Line 8, delete "6,490,556 B1" and insert -- 6,490,556 B2 --.

Column 9, Line 62, Claim 1, delete Claim 1 in its entirety and insert the following:

-- 1. A method for controlling an audio conference, comprising:
 establishing an audio conference between a plurality of devices coupled to a packet network;
 communicating a plurality of selectively mixed signals to a conference administrator device for monitoring, each selectively mixed signal including media from at least two of the devices and excluding media from at least one of the devices;
 receiving a command from the conference administrator device to disable media from a particular device; and
 disabling the media from the particular device to terminate communication of the media from the particular device to the other devices in the audio conference;
wherein the media is communicated in packets. --

Patent No.: 6,839,416 B1
Dated: January 4, 2005
Inventor(s): Shmuel Shaffer

It is certified that errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Column 10, Line 24, Claim 6 is Canceled.

Column 10, Line 32, Claim 7, after "claim", delete "6" and insert -- 1 --.

Column 10, Line 36, Claim 8, after "claim", delete "6" and insert -- 1 --.

Column 10, Lines 39-40, Claim 9, after "claim 1,", delete "wherein determining comprises:" and insert -- further comprising --.

Column 10, Line 41, Claim 9, after "to", delete "a conference" and insert -- the conference --.

Column 10, Line 45, Claim 9, after "receiving a" insert -- second --.

Column 10, Lines 50-51, Claim 11, after "claim 1,", delete "wherein determining comprises" and insert -- further comprising --.

Column 10, Line 58, Claim 12, after "receiving a", delete "command" and insert -- request --.

Column 10, Line 60, Claim 13, after "wherein the", delete "command" and insert -- request --.

Column 11, Line 1, Claim 15, delete Claim 15 in its entirety and insert the following:

-- 15. A conference bridge, comprising:

 a plurality of ports to communicate media with a plurality of devices in an audio conference;

 a media processor operable to receive media from the devices and to selectively mix signals for communication to a conference administrator device for monitoring, each selectively mixed signal including media from at least two of the devices and excluding media from at least one of the devices; and

 a media controller operable to disable media from a particular device to terminate communication of the media from the particular device to the other devices in the audio conference in response to a command received from the conference administrator device;

 wherein the plurality of devices are coupled to the conference bridge using a packet network and the media is communicated in packets. --

Patent No.: 6,839,416 B1
Dated: January 4, 2005
Inventor(s): Shmuel Shaffer

It is certified that errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Column 11, Lines 14-15, Claim 16, after "claim 15," delete "further comprising a media processor operable to:" and insert -- the media processor further operable to: --.

Column 11, Line 16, Claim 16, delete "receive media from the devices;"

Column 11, Line 42, Claim 21, after "receives a", insert -- second --.

Column 11, Line 54, Claim 24, delete Claim 24 in its entirety and insert the following:

-- 24. Conference control software embodied in computer readable media and operable to:

establish an audio conference between a plurality of devices coupled to a packet network;

communicate a plurality of selectively mixed signals to a conference administrator device for monitoring, each selectively mixed signal including media from at least two of the devices and excluding media from at least one of the devices;

receive a command from the conference administrator device to disable media from a particular device; and

disable the media from the particular device to terminate communication of the media from the particular device to the other devices in the audio conference;

wherein the media is communicated in packets. --

Column 12, Line 17, Claim 29 is Canceled.

Column 12, Line 25, Claim 30, after "of", delete "claim 29" and insert -- claim 24 --.

Column 12, Line 29, Claim 31, after "of", delete "claim 29" and insert -- claim 24 --.

Column 12, Lines 32-39, delete Claim 32 in its entirety and insert the following:

-- 32. The conference control software of Claim 24, further operable to:

communicate a plurality of single source signals to the conference administrator device for monitoring, each single source signal generated by one of the devices; and

receive a second command from the conference administrator device to disable media from the particular device. --

Column 12, Lines 43-44, Claim 34, after "claim 24," delete "wherein determining comprises identifying" and insert -- further operable to identify --.

Column 12, Lines 47-53, delete Claim 35 in its entirety and insert the following:

-- 35. The conference control software of Claim 24, further operable to:
communicate a recorded prompt to the particular device, the recorded prompt
inviting the particular device to rejoin the audio conference; and
receive a request to rejoin the audio conference from the particular device. --

Column 12, Line 55, Claim 36, delete "comprising enabling" and insert -- operable to enable --.

Column 12, Lines 58-67, delete Claim 37 in its entirety and insert the following:

-- 37. A conference bridge, comprising:
means for establishing an audio conference between a plurality of devices
coupled to a packet network;

means for communicating a plurality of selectively mixed signals to a
conference administrator device for monitoring, each selectively mixed signal
including media from at least two of the devices and excluding media from at least
one of the devices;

means for receiving a command from the conference administrator device to
disable media from a particular device; and

means for disabling the media from the particular device to terminate
communication of the media from the particular device to the other devices in the
audio conference;

wherein the media is communicated in packets. --
